

REMARKS

The claims have been amended as needed both as to form and as to substance.

The indication of allowability of claim 68 is noted with thanks. Accordingly, the limitations of claim 68 are added to claim 63 and claim 68 is of course canceled as redundant of thus-amended claim 63.

The dependencies of claims 69 and 75 are appropriately changed.

Turning then to assembly claim 79, we have added the limitations of claim 80 plus what is believed to be the distinctive feature of claim 68, in structural terms. Thus, claim 79 should be allowable for the same reasons as amended claim 63.

Again, claim 80 is canceled as redundant of thus-amended claim 79 and the necessary formal change in claim 91 is made herewith.

As this amendment seeks only to place the application for allowance with claims indicated previously to be allowable, or what is believed to be claims reciting the same patentable subject matter, it is not believed to be necessary to discuss the cited references again at this time.

In view of the present amendment and the foregoing remarks, therefore, it is believed that the present application

has been placed in condition for allowance and reconsideration and allowance are respectfully requested.

The Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 25-0120 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17.

Respectfully submitted,

YOUNG & THOMPSON
